New Gender Strategies for Women's Inclusion

Co-funded by
the European Union

Today the rights of migrant women and gender equality are recognised as pillars of our society. Yet, the road to equality and inclusion is long.

1 in 3 women is unemployed, 2/3 of them have experienced violence, thousands have no access to basic services.

When there is no social justice for one individual, there is no balance for anyone. Creating a more balanced society requires your help.

By offering a job, you can help to create social inclusion, economic independence and gender balance.

Diverse cultural perspectives can inspire creativity and drive innovation.
